## Description

---

The Two Tier New York Bike Shelter stands out for its functionality and design. It is a free-standing, single-sided structure that provides a high-capacity, secure parking solution for a large number of bikes. The shelter's anti-climb roof makes it suitable for public spaces, and it comes in various sizes and roof options, ensuring adaptability to different environments. Its durable construction and flexibility in installation (either cast in or bolted down) make it an excellent choice for various settings, including urban areas and educational institutions.

This stunning bike shelter comes with an anti-climb roof perfect for installations in public spaces. Supplied with two-tier racks, this cycle shelter is the best option on the market for parking a lot of bikes outside under a shelter. This visually pleasing shelter is floor-fixed; legs are available for casting in or for bolting down.

## Options:

This shelter can be manufactured with several different types of finishes. You can choose from galvanised, powder-coated, or both galvanised and powder-coated.

## Specification:

- Free standing, single-sided.
- Roof options include galvanised (standard), galvanised and colour coated or PVC profiled sheet.
- Adjustable levelling feet for on-site positioning
- Available ragged for casting in or flanged for bolting down.
