Description

The BDS Electric Bike Rack is a pioneering and user-friendly cycle parking system for electric bikes.

It is a new avant-garde electric cycle charging unit to meet the burgeoning demand for electric bikes. The cycle stand conveniently and securely parks electric bike and provides the cyclist with a built-in twin gang UK plug socket.

Price: 4 Bike £1000+VAT

Specification

- 4 Bike Frame as standard but other sizes available on request.
- Built-in twin gang UK plug socket
- Available in a galvanised or powder coated finish (please call us for a quote).
- The bicycle is held stable in the wheel channels with locking bars for additional security
- Accommodates all cycle types (mountain bikes, town bikes etc)
- Bicycle frame and wheel can be chained for security
- Cycle is well supported when being stored
- Can be extended indefinitely
- Double or single sided versions available
- Robust construction, hot dip galvanised to BS EN ISO 1461
- This bike rack can help contribute towards gaining ENE8 Cycle storage credits when used in the appropriate situation, under the Code for Sustainable Homes.
- Cycle stands are compact with a centre to centre distance of 375mm
- Minimum depth 1950mm (plus a recommended minimum entrance space of 1500mm)
- Rack will require at least a 50 amp supply to a 240v single-phase commando socket with rotary isolation and FB Padlock.

Lead time: 10-12 weeks.
