Description

For bolting to a suitable brick or concrete wall by using 12mm bolts (extra). Single unit 750mm long.

Specification

- 48mm overall diameter galvanised and black mild steel to BS EN ISO 1461 (1999).
- Flange diameter 134mm.
- 8 no. 10mm bolts required per flange (available extra).

Installation

Position rail in required location, ensuring height and accessibility is suitable for your application. Mark out drill holes. Drill to suit bolt type and then bolt rail into position.

Delivery time: Typically 5 - 10 working days
