Description

The Fixed Butterfly Wall Mounted Bike Stand is a simple and straightforward bike storage solution. It is quick and uncomplicated to install, making it an excellent choice for any property, whether domestic or commercial. It has a robust steel construction of two welded angular bars. The steel has a corrosion-resistant finish, making it perfect for both indoor and outdoor bike parking settings.

The Butterly cycle rack provides a secure way to lock the bike's wheel to the rack's frame. To add to that, we offer an option to further install locking hoops for bike frames for increased security.

The Butterfly bike stand can fit road/hybrid bikes with a max tire width of 40mm.

Options

Our Butterfly cycle stand can be installed in two different ways. You have the option to have a standard wall fixing where the stand is bolted to the wall. Alternatively, you could choose the floor mounting option, which makes the Butterfly rack a freestanding unit which can be located where you want it to be, regardless of proximity to walls or other structures.

Additionally, for extra security for parked bikes, you can opt to have locking hoops for bike frames installed alongside each Butterfly stand.

Features:

- Two Angular Bars
- Evenly Spaced Wall Fixing Holes (3) Rigid
- Welded Construction
- Easy to install
- Fixing options – wall-mounted or floor mounted
