Description

This is a Sheffield-style variant. The stand will accommodate up to two bikes (one on each side). Offering great flexibility, it allows for all styles of bikes to be secured with high levels of security.

The Clifton Cycle Stand offers a unique twist on the traditional Sheffield bike stand design. This stand provides secure and accessible parking for bicycles, catering to the needs of cyclists in various locations. Its robust build ensures longevity and reliability, making it an ideal choice for those seeking a practical and attractive bike parking solution.

Options:

The Clifton bike stand can be manufactured with overground fixing and galvanised, powder-coated and galvanised or in stainless steel. It can also be made with underground fixing and galvanised, powder-coated and galvanised, or in stainless steel.

Specification:

- Available ragged for casting into the ground or flanged for bolting down
- 48mm overall diameter
- Wall thickness 3.25mm
- Ragged versions 300mm below ground
- Flanged versions require 3 12mm bolts per flange (6 per stand)
- Height above ground 750mm, length overall 750mm
- Bolts are available extra.
- Mild steel galvanised to BS EN ISO 1461 (1999).
- Stainless steel is grade 304 as standard

Installation:

Mild steel and stainless steel overground versions, a suitable surface, preferably concrete should already exist for drilling into and bolting down. For overground versions, a concrete foundation of approx. 300mm cube is recommended, depending on ground conditions.

When positioned adjacent to one another, stands should be around 800mm apart and around 450mm from any wall or other obstruction.

Delivery Time:

14 - 21 days
