

The Crossbar Bike Stand

£238.80

Excl. VAT: £199.00

Product Images

Description

A high-security bike stand offers the ability for all cycles and sizes to be locked with both the front wheel and the frame. Also doubles as a tapping bar if being installed in public areas.

The Crossbar Bike Stand presents a practical enhancement to the traditional Sheffield stand design, featuring an additional crossbar for increased stability and security. This feature enhances the stand's functionality, making it a robust choice for reliable bike parking. Its durable construction ensures longevity, providing a dependable solution for cyclists.

Options:

The Crossbar bike stands can be polyester powder-coated in black, manufactured from galvanised mild steel or made from stainless steel.

Specification:

- Mild Steel construction
- This bike stand can help contribute towards gaining 2x ENE8 Cycle storage credits when used in the appropriate situation under the Code for Sustainable Homes
- Underground fixing dimensions: 750mm wide x 1050mm tall; Baseplate: 60mm x 60mm. 50mm tube o/d diameter, 2.5mm wall thickness; Approx weight: 10Kg
