

10 Space Cycle Shelter & Bike Stands

£1,496.40
Excl. VAT: £1,247.00

Product Images

Description

One of our best-selling cycle shelters, it comes with all-around features to suit any environment and is also used and approved by Transport for London. The shelter is made of mild steel and with bolt-down fixing or underground fixing available. The bike shelter is available in a galvanised, polyester powder-coated RAL code colour finish or hot dipped galvanised and polyester powder-coated RAL code colour finish. It has an anti-vandal clear polycarbonate UV stable roof, with optional polycarbonate sides and swing or sliding gates. It comes with optional cycle parking - galvanised bike stands for safety and security, giving confidence to cyclists by allowing both the frame and wheels to be secured to the cycle stand.

Options:

The bicycle shelter comes with several options for finish. You can select a powder-coated colour in a RAL colour of your choice or have it hot-dipped galvanised, or both, and choose our combination add-on – hot-dipped galvanised and powder-coated in the colour of your choice. Alternatively, it can be manufactured and shipped raw. It can be selected with or without bike storage, LED light and polycarbonate side panels for added safety. You can also opt for swing or sliding gates, which can be made of steel mesh or polycarbonate. Furthermore, you can go a step further in your security and have a locking system with a coded padlock, swipe cards or lock and key. Lastly, you can have an optional central glazing strap to cover the place where the polycarbonate panels meet.

Specification:

- Tested and approved to Transport for London Health and Safety standards and their Cycle Shelter of choice
- Recommended for Schools, Colleges, Universities, Offices and Public Buildings
- An extremely durable and resilient shelter, it has been structurally tested against the harshest conditions found in the UK and approved against BS EN standards
- Optional end polycarbonate panels to provide additional protection from the elements or to restrict access
- Optional cycle parking bike stands, hot dipped galvanised
- Optional assembly bolts, expanding foundation bolts for concrete plinth and arrangement drawing for assembly
- No-crawl under perimeter with adjustable feet and allows for fixing onto uneven surfaces
- Complies with secure storage as required by the Code for Sustainable Homes
- 50mm box tube to BS EN standards
- Frame comes with optional finishes - raw, hot dipped galvanised or polyester powder coated to BS EN ISO 1461:1999 standard finish - any RAL code colour, or both, which is recommended
- Shelter comes with adjustable overground fixing feet
- Single units can be placed alongside or opposite each other to form larger cycle storage areas
- Shelters and Enclosure come with latch and coded padlocks; optional lock with 2 keys; or ask us about our swipe card ID locking system
- This bike shelter can help contribute towards gaining ENE8 Cycle storage credits when used in the appropriate situation under the Code for Sustainable Homes
