

# 20 Space Cycle Enclosure

£4,117.20

Excl. VAT: £3,431.00

## Product Images

## Description

---

The BDS 20 Spacec enclosure is one of our best selling cycle enclosures as it comes with excellent all-round features to suit any environment and is very customisable with many add-on options. The large shelter is made from mild steel and is with bolt-down fixing. The enclosure is available in a galvanised or polyester powder-coated RAL code colour finish. It comes with an anti-vandal clear polycarbonate roof, with optional polycarbonate sides and swing or sliding gates. It is ideally paired with galvanised bike stands, which are the perfect way to provide cyclists with a safe and secure location to store their bikes.

## Options:

The bicycle enclosure can be ordered with or without galvanised stands. It comes with several options for finish - raw, powder-coated, hot-dipped galvanised, or both hot-dipped galvanised and powder-coated in the colour of your choice. The enclosure can be selected with or without an LED light and a spring door closing mechanism for added safety both day and night. The enclosure can be installed with additional helmet lockers. The enclosure can be manufactured with a vented roof and a central glazing strap. There is an option to further protect bikes in storage by adding polycarbonate end panels, a door-closing mechanism and swing gates. You can go a step further in your security and have a coded padlock, swipe card system, or lock and key.

## Specification:

- Optional polycarbonate end panels
- Optional galvanised cycle parking bike stands
- Optional assembly bolts, expanding foundation bolts for concrete plinth and arrangement drawing for assembly
- No climb end frames with anti-vandal PET panels
- No crawl under perimeter
- Complies with secure storage as required by the Code for Sustainable Homes
- 50mm box tube
- Frame comes with or without optional finishes - hot dipped galvanised or polyester powder coated to BS EN ISO 1461:1999 standard finish, or both which is recommended
- Shelter comes with adjustable overground fixing feet
- Built-in solar LED lighting (optional)
- Gate closing gas strut (optional) - this ensures gates are securely closed behind cyclists as they enter and exit the enclosure
- Single units can be placed alongside or opposite each other to form larger cycle storage areas
- Shelters and Enclosure come with latch and coded padlocks; optional lock with 2 keys; or ask us about our swipe card ID locking system
- This bike shelter can help contribute towards gaining ENE8 Cycle storage credits when used in the appropriate situation under the Code for Sustainable Homes
