Description

The ultimate secure cycle shelter, The BDS Centurion Shelter is all steel for the areas that need an extra tough bicycle storage bunker. A mild steel bike shelter with bolt-down fixing. Shelter is available in a galvanised or polyester powder-coated RAL code colour finish or both. Comes with optional galvanised bike stands for secure cycle parking. This model can accommodate up to 10 bikes, however larger sizes can be manufactured to your specific needs.

Options:

This bike enclosure can be ordered with or without bike stands. It comes with several options for finish - raw, powder-coated, hot-dipped galvanised, or both hot-dipped galvanised and powder-coated in the colour of your choice. The enclosure can be selected with or without an LED light for added safety both day and night. It can be manufactured with an extended front for more space and comfort going in and out, and with or without helmet lockers. The cycle shelter can be manufactured with additional swing metal gates and a strut door closing mechanism. You can add an extra layer of security for your users by opting for one of our security options - lock and keys, swipe card entry system or a coded padlock.

Specification:

- Optional galvanised bike stands
- Optional LED light
- Includes assembly bolts, expanding foundation bolts for concrete plinth and arrangement drawing for assembly
- Steel mesh sides
- Corrugated steel roof
- No-crawl under perimeter
- Complies with secure storage as required by the Code for Sustainable Homes
- 50mm box tube
- Frame is hot dipped galvanised or polyester powder coated to BS EN ISO 1461:1999 standard finish - any RAL code colour or both, which is recommended
- Shelter comes with adjustable overground/underground fixing feet
- Optional gate closing strut for added security
- This bike shelter can help contribute towards gaining ENE8 Cycle storage credits when used in the appropriate situation under the Code for Sustainable Homes
